

## Your Adjudication

-----  
When we mortals die, "each individual's right to unending life comes up for adjudication" (TUB 28:6.6). What is the "current statement of your account with the supernatural forces of the realms" (ibid.)? What will be your standing before the tribunals of the Ancients of Days?

"In some way not fully understood, the Universal Censors are able to gain possession of an epitome of the human life as it is embodied in the Adjuster's duplicate transcription of the spiritual values and morontia meanings of the indwelt mind. The Censors are able to appropriate the Adjuster's version of the deceased human's survival character and spiritual qualities, and all this data, together with the seraphic records, is available for presentation at the time of the adjudication of the individual concerned." (TUB 112:4.2)

Do you make the following declaration before the all-seeing eyes of God?

I believe that I have eternal salvation, because I profess my belief in God's promises; but, I follow man's instructions and serve those ends.

I do not bear false witness; but I actively support those who relentlessly choose to publicly lie against the children of light.

I have not killed anyone, not even an animal; but I actively support those who are devoted to the murder of men, women, and children.

I do not steal; but I actively support those who are dedicated to stealing from this generation, the next generation, and even the next.

I have never committed adultery; but I actively support those who have no consecration to the ideals of pair marriage and true monogamy.

I always showed respect for my parents as they raised me; but I actively now support those who seek to overthrow the divine ideal of family life.

And when all is said and done, I believe that God will judge me based on the appearance of my outer life, not the reality of my inner life.

Or, am I presuming upon the love of God? [Be Warned!--see TUB 147:5.9]

(food for reflection by Chris Halvorson)
